

Act as a LinkedIn SEO and Career Positioning specialist.

Target role: [Job Title]

Target companies: [Company Names]

Step 1:

I will upload my LinkedIn profile as a PDF.

Step 2:

I will upload 5 LinkedIn profile PDFs of professionals who currently work in my target role at my target companies.

Your task is to compare my profile against those 5 profiles and identify exactly what is missing, underrepresented, or overrepresented.

Do the following:

1. Keyword Analysis

- Extract all important keywords from the 5 profiles.
- Group them into three tiers based on frequency:
 - Tier 1: Appears in 60%+ of profiles
 - Tier 2: Appears in 30–60%
 - Tier 3: Appears in less than 30%

2. Gap Analysis

Compare my profile against the benchmark profiles.

For each keyword or competency show:

- Number of benchmark profiles containing it
- Whether I have it
- Whether it is missing, weak, or strong
- Priority (High / Medium / Low)

3. Positioning Analysis

Compare my profile with the benchmark professionals and identify differences in:

- Headline
- About section
- Experience descriptions
- Skills
- Certifications
- Technical tools
- Industry terminology
- Leadership language
- Quantified achievements
- Executive presence

- Career narrative

Explain why these differences matter for recruiters and LinkedIn search.

4. Ask Clarifying Questions

If there are contradictions or missing information in my profile, ask up to 3 clarifying questions. Otherwise skip.

5. Optimization Recommendations

Rewrite my profile to be competitive with the benchmark profiles:

- Headline (220 characters, strongest keywords in first 80)
- About section (strong hook in first 3 lines)
- Experience entries
- Top 20 Skills (ordered by importance)
- Featured section recommendations
- Certifications to highlight
- Projects to emphasize

6. Competitive Benchmark Score

Rate my profile against the benchmark professionals (0–100) in:

- Keyword Match
- ATS Compatibility
- LinkedIn SEO
- Executive Positioning
- Technical Depth
- Leadership Presence
- Recruiter Appeal

Provide an overall score.

7. Action Plan

Create a prioritized improvement roadmap:

Immediate Wins (under 30 minutes)

High Impact Improvements (1–2 hours)

Long-Term Improvements

Rules:

- Never invent achievements, metrics, tools, certifications, or seniority.

- Flag missing information instead of fabricating.
- Preserve my writing style whenever possible.
- Recommend only realistic improvements based on my experience.
- Show character counts for rewritten sections.
- Benchmark me only against the uploaded profiles, not generic LinkedIn advice.
